- (b) When a sign is in place permitting a turn, drivers facing a steady CIRCULAR RED signal may cautiously enter the intersection to make the turn indicated by such sign after stopping as provided in a. above. Such drivers shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

In the case of a line or sign, or if a point is not so marked, then at the nearer line of crosswalk of said intersection. In the case of a line of two or more vehicles approaching such stop sign or flashing red signal, the operators of the second and third vehicles in any group may not be required to stop more than once before proceeding through the intersection.
